No

Online Presence

- LinkedIn ([link](#))

Technical Proficiencies

- Data Entry & Data Management
- Microsoft Excel (Formulas, Spreadsheets, Data Cleaning)
- Google Workspace (Docs, Sheets, Forms, Drive)
- Basic Python (learning in progress via Coursera)
- Survey & Feedback Tools (Google Forms, Typeform)
- Web Research & Information Gathering
- AI Tools (basic use of ChatGPT, Gemini, TTS/STT APIs for AI project)

Soft Skills

- Attention to Detail
- Communication (Written & Verbal)
- Time Management
- Problem Solving
- Adaptability & Willingness to Learn
- Confidentiality & Integrity
- Team Collaboration
- Initiative & Accountability

Interests

Data analytics, artificial intelligence, criminal justice, digital tools, admin support, research, and continuous learning.

CAPACITI

I am a motivated and detail-oriented professional with Higher Certificates in both Criminal Justice and IT in Support Services. With over two years of experience in data capturing, I've developed solid skills in data management, administration, and problem-solving. I'm currently studying Criminal Justice and exploring the field of data analytics, aiming to apply my strengths in tech-driven, fast-paced environments. I'm looking for an opportunity where I can grow while making meaningful contributions through accuracy, efficiency, and excellent service delivery.

» Education

- Higher Certificate in Criminal Justice - University of South Africa (2024-2025)
Introduction to criminal justice theory and practice, focusing on legal principles, law enforcement, and the justice system.
- Higher Certificate in IT in Support Services – Rosebank College (2021-202)
Gained foundational knowledge in IT support, troubleshooting, end-user computing, and basic web development, with a focus on technical assistance in business environments.

» Work Experience

- AI Intern – CAPACITI (Apr 2025 – Present)
Participating in an intensive 12-month AI Bootcamp combining theoretical learning with hands-on projects in data science, machine learning, and artificial intelligence.
- Data Capture – Silverpath Consulting (Feb 2022 – Sep 2025)
Accurately captured, verified, and maintained large volumes of sensitive data. Organized digital records, resolved discrepancies, and supported workflow improvements. Maintained strict confidentiality and consistently met deadlines with high data accuracy.

» Achievements and Key Projects

- Over 2 years of experience managing and verifying high volumes of data with 98%+ accuracy
- Contributed to multiple team-based AI and data projects as part of a bootcamp, focusing on accessibility, user experience, and content structure.
- Maintained strong engagement and progress across multiple upskilling platforms, including Coursera, Google, and bootcamp-led projects.
